PILLOW TALK
COMPANION GUIDE

Chapter 9 | Vision Talk

Key Takeaway

A shared vision helps couples seek God together, align their priorities, and intentionally build a marriage and family with purpose. **Vision gives your marriage direction and your family purpose.**

Lesson Summary

Every family is creating a culture, whether it's happening intentionally or accidentally. A shared vision helps couples move in the same direction and build toward the future God has for them. **Vision becomes reality through intentional choices.** What we prioritize should show up on our calendars, in our family values, and in the way we spend our time.

Discuss Together

1) If our family were described in three words today, what would they be?
2)Does the way we currently spend our time reflect what we say matters most to us?
3) What dreams has God placed in our hearts for our marriage and family, and what could we begin doing now to move toward them?

Put into Practice

Schedule a **Vision Night.** Pray, dream, and write down one shared vision or goal for your future. **Don't just let life happen. Build it intentionally.**
